What we are and what we could be...

Living the story. Telling the story.

# Getting started using the cards with groups

## Suggestions for Facilitators

The cards are designed to help start conversations about what church does and could mean for people. There are no right answers! And you may have better ideas of how to use the cards - if so, just go for it.

The questions are in 3 broad categories, in case you want a particular focus:

- 1 OUR PERSONAL faith
- 2 OUR faith TOGETHER
- 3 OUR faith IN THE WORLD

We suggest you give out/get people to choose a card without seeing the question - there is no perfect question and no wrong answer.

There are 5 copies of the Anglican Five Marks of Mission to help with the questions on them.

People might want different options:

- Answer the question themselves
- Answer, then ask someone else what their answer would be
- Choose to pass but see if someone else would like to answer.

Some people may give an answer and then reflect on the answer themselves. And a conversation with others reflecting too might just open up. Let it flow and see where it goes.

## Helping people reflect on the answers

### Suggestions for Facilitators

It's helpful to have some questions up your sleeve after the conversations e.g.:

- What are we noticing about our answers?
  - Did any of our answers surprise us?
  - Were there questions we passed on - does that tell us anything?
- Which questions or conversations generated the most energy?
- Are there any questions that we would like to think about more as a church?
- Has this helped us uncover any hints of where God might be calling us to put our energy or focus?
