Beaverbrook Foundation

Funds a very wide range of arts, heritage and socially focused projects, including the renovation and adaptation of churches, throughout England and Wales. The foundation was originally established in 1954 by the first Lord Beaverbrook, a Canadian-British businessman, politician and newspaper publisher. It was re-registered as a Charitable Incorporated Organisation in 2013. The areas that the Foundation has increasingly concentrated on has been supporting small charitable projects; recognising that it is often more difficult to raise a few thousand to refurbish a church hall than it is to raise millions for a major public building. Our experience shows that it is often the small donations to the small charities that make a big difference.

Grants are made at the discretion of the trustees for charitable purposes including those that would have reflected the interests of the first Lord Beaverbrook, including:-

- The erection or improvement of the fabric of any church building
- The purchase of books, papers, manuscripts or works of art
- Care of older people or sick people

Grants are made for capital expenditure, for revenue and running costs, and for special projects. The trustees are keen to support match funding initiatives, and may make a payment conditional upon the applicant obtaining the remaining funding from other sources. The foundation is able to support all faith organisations but applications are only accepted from registered charities.

National Churches Trust: Wolfson Grants

The Wolfson Foundation funds are now administered by The National Churches Trust.

The Wolfson Fabric Repairs grants programme supports fabric repairs for Grade I and II* (England), A and B+ (Northern Ireland) listed Anglican church buildings throughout the United Kingdom. £400,000 per year is awarded to projects, including urgent roof repairs, improving rainwater goods, drainage works, and wall repairs. In 2019, awards were given to 79 parishes.

The Fund supports essential fabric repairs in architecturally or historically significant Anglican churches in the UK.

Anglican churches in the UK are eligible to apply. The church must be listed either Grade I or Grade II* in England, Scotland and Wales, or Grade A or B+ in Northern Ireland. The following criteria are considered when awarding grants:-

- Significance of the building.
- Urgency of the proposed works.
- Need for the works (e.g. Category A or B works in the most recent Quinquennial Inspection report).
- Appropriateness of the proposals.
- Financial need of the parish.

Funding is available for urgent fabric repairs. These tend to be repairs that are Category A or B recommendations in Quinquennial Inspection reports. This includes:

- Roof repairs (including repairs due to theft).
- Masonry repairs.
- Rainwater disposal and drainage.
- Floorwork.

50% of the required funding needs to have been secured as actual or pledged grants prior to application.

The church must not have received a grant from the Wolfson Foundation in the previous five years. Funding is not available for: Installation of facilities (eg WCs or access improvements); Renewal of heating & lighting; Any Category D (or lower) recommendation arising from a Quinquennial Inspection report; Professional fees; VAT recovery.

Grant potential	Information re Applications
Up to £100,000 via Gateway Grants; over 100,000 via Foundation Grants	The move to the National Churches Trust will result in a simplified funding application process for fabric repairs. Parishes will be able to submit one application form and be considered for up to two fabric repair grants. This will reduce form filling for the parishes. There will also only be one reporting and claims process for the two grants, again reducing the burden of paperwork on parishes.
